Dear Sponsor,

Civil and Environmental Engineering Graduate Association (CEEGA) is a nonprofit organization of structural, transportation, water resources and environmental graduate students at the University of California Irvine (UCI). The mission of CEEGA organization is to represent the CEE graduate students’ needs, and to serve as a channel between the graduate students and the department. It strives to promote collaboration between graduate students from various sub-disciplines within the department. In addition, the CEEGA organization aims to provide a point of reference for newly admitted students who are transitioning into the program, as well as to help the current students navigate the best professional path in-line with their interest. Furthermore, CEEGA intends to bridge the gap between the current students and the Alumni of the CEE department at the University of California, Irvine (UCI).

In order to reach these goals, financial support from you would help this team to hold social and technical events, seminars and panel discussions. We are hoping to raise $2000 through fundraising and sponsorships to pay events expenses. Hopefully, with your support, the 2018-2019 fall quarter will be a great start for CEEGA society.

A sponsorship form has been attached with information about different events and how to donate. Thank you for your time and consideration. If there are any questions, or you require additional information, please contact CEEGA team, ceega@uci.edu.

Sincerely,

Farzin Zareian, Professor
CEEGA Faculty Advisor
zareian@uci.edu

Vesta Afzali, PhD Student
CEEGA Treasurer
